INTRODUCTION

The *Illinois Register* is the official state document for publishing public notice of rulemaking activity initiated by State governmental agencies. The table of contents is arranged categorically by rulemaking activity and alphabetically by agency within each category. The Register also contains a Cumulative Index listing alphabetically by agency the Parts (sets of rules) on which rulemaking activity has occurred in the current Register volume year and a Sections Affected Index listing by Title each Section (including supplementary material) of a Part on which rulemaking activity has occurred in the current volume year. Both indices are action coded and are designed to aid the public in monitoring rules.

Rulemaking activity consists of proposed or adopted new rules; amendments to or repealers of existing rules; and rules promulgated by emergency or peremptory action. Executive Orders and Proclamations issued by the Governor; notices of public information required by State statute; and activities (meeting agendas, Statements of Objection or Recommendation, etc.) of the Joint Committee on Administrative Rules (JCAR), a legislative oversight committee which monitors the rulemaking activities of State agencies; is also published in the Register.

The Register is a weekly update to the *Illinois Administrative Code* (a compilation of the rules adopted by State agencies). The most recent edition of the Code along with the Register comprise the most current accounting of State agencies' rules.

The Illinois Register is the property of the State of Illinois, granted by the authority of the Illinois Administrative Procedure Act [5 ILCS 100/1-1 et seq.].

NOTICE OF PROPOSED AMENDMENT

1) Heading of the Part: Minimum Safety Standards for Transportation of Gas and for Gas Pipeline Facilities

2) Code Citation: 83 Ill. Adm. Code 590

3) Section Numbers: Proposed Action:

590.10 Amendment

4) Statutory Authority: Implementing and authorized by Section 3 of the Illinois Gas Pipeline Safety Act (220 ILCS 20.3).

5) A Complete Description of the Subjects and Issues Involved: Part 590 contains the Commission's adoption of Federal pipeline safety standards pursuant to Section 3 of the Illinois Gas Pipeline Safety Act ("Act"). Section 3 of the Act requires the Commission's rules to be as inclusive and as stringent as the Federal safety standards and compatible with the Federal safety standards.

The United States Department of Transportation completed rulemaking activity during 1994 that requires the Commission to update its rules so that the Commission's rules are in conformance with Section 3 of the Act. It is appropriate to initiate rulemaking to amend Part 590. The proposed amendment will update the Commission's rules to incorporate the Federal rules as of February 15, 1995.

6) Will this rulemaking replace any emergency rulemaking currently in effect? No.

7) Does this rulemaking contain an automatic repeal date? No.

8) Does this rulemaking contain incorporations by reference? Yes.

9) Are there any other proposed rulemakings pending on this part? No.

10) Statement of Statewide Policy Objectives: This proposed amendment neither creates nor expands any state mandate on units of local government, school districts, or community college districts.

11) Time, Place and Manner in which interested persons may comment on this proposed rulemaking: Comments should be filed with:

ILLINOIS COMMERCE COMMISSION

NOTICE OF PROPOSED AMENDMENT

Comments should be filed with the Chief Clerk within 45 days of the date of this issue of the Illinois Register.

12) Initial Regulatory Flexibility Analysis:

A) Types of small business, small municipalities and not for profit corporations affected: This proposed amendment will affect any gas utility that is also a small business as defined in the Illinois Administrative Procedure Act. This amendment will also affect any small municipality that supplies natural gas service.

B) Reporting, bookkeeping or other procedures required for compliance: None

C) Types of professional skills necessary for compliance: Managerial skills.

13) State reasons for this rulemaking if it was not included in either of the two (2) most recent regulatory agendas: Certain rules of the USDOT became effective in February 1995, after the submission of the regulatory agendas in December 1994. Given the mandate of Section 3 of the Act, rulemaking was initiated at the first opportunity, before the next required filing of the regulatory agendas.

profit corporations affected: Commercial fishermen licensed by the Department of Conservation to fish Lake Michigan.

B) Reporting, bookkeeping or other procedures required for compliance: The commercial fishermen are required to submit monthly catch reports and a yearly operational plan. The catch reports are necessary to monitor the removal of fish from Lake Michigan. The yearly operational plan identifies the port from which each fisherman's vessel will operate and the exact location at which all harvested fish will be transferred from the vessel to the shore. The operational plan is necessary to monitor the fishermen's activities for law enforcement purposes.

C) Types of professional skills necessary for compliance: No professional skills are required.

13) State reason(s) for this rulemaking if it was not included in either of the two (2) most recent regulatory agendas: This part was not included in Regulatory Agendas submitted for the period 1/1/95-6/30/95 because the Department was unaware at that time that these amendments were necessary.

Section 850.20 Quota

- a) Harvest quotas will be reviewed annually and will be established by the Department for each license fishing year taking into consideration the condition and supply of Lake Michigan fish stocks.
- b) For each license year beginning April 1st and ending March 31st, annual total harvest quota of 349,000 120,000 pounds (round weight) of yellow perch and 125,000 pounds (dressed weight) of bloater chubs will be permitted. These annual total harvest quotas shall be divided equally among each licensee at the beginning of each license year. Upon reaching their share of the annual harvest quota for each species, each commercial license holder shall terminate fishing for that species for the remainder of the current license year. It shall be unlawful to possess other species except smelt and alewife incidentally caught in bloater chub and yellow perch gill nets, fished in compliance with this Part and the Illinois Fish and Aquatic Life Code. All other species must be removed immediately from the gill nets as they are brought on board the vessel and returned to the water at once in the same condition as taken.

Should an eligible candidate whose name is reached on the list for license elect not to receive a license or in the event a licensee's license is revoked for cause, then that eligible applicant or licensee shall be deleted from the eligible list then in effect.

- e) Hand fork - mussel harvesting device similar in appearance to a common cornfork and utilized while wading.

- f) Mechanical devices - refers to dredges and suction devices operated by motorized (internal combustion or electrical) power used in the actual harvest of mussels and does not refer to the manner in which the mussel harvest device is raised into the boat or the device used in propelling the boat.

6) If this emergency amendment is to expire before the end of the 150-day period, please specify the date on which it is to expire: This emergency amendment will remain in effect for the 150-day period.

7) Date filed in agency's principal office: March 23, 1995

8) Reason for emergency: The yellow perch population in the southern basin of Lake Michigan has been experiencing dramatic abundance declines. Since 1992 the Illinois assessment catch rates for perch have declined by 74%. This decline has been due to a lack of significant recruitment into the perch population that is available to the sport and commercial fisheries.

9) A complete description of the subjects and issues involved: It is characteristic for yellow perch populations to be dominated by strong year classes and to have a series of 3 or 4 years with weak year classes. The current 5 year series of weak year classes has resulted in a population structure composed primarily of individuals that have reached or have passed their prime reproductive age. The decline in yellow perch population abundance has resulted from a lack of recruitment and has not been from over harvest by the sport and commercial fisheries for this species. However, the age structure and abundance levels of perch now have reached a point that the four Lake Michigan Management Agencies believe cannot sustain the current fishery harvest levels. The objective of the lakewide management plan is to reduce yellow perch harvest so that existing stocks can be protected and thereby extend their harvest and recruitment opportunities.

10) Are there any proposed amendments to this part pending? No

11) Statement of statewide policy objectives (if applicable): This rule has no impact on local governments.

Section 850.20 Quota

EMERGENCY

- a) Harvest quotas will be reviewed annually and will be established by the Department for each license fishing year taking into consideration the condition and supply of Lake Michigan fish stocks.
- b) For each license year beginning April 1st and ending March 31st,

DEPARTMENT OF CONSERVATION

NOTICE OF EMERGENCY AMENDMENTS

annual total harvest quota of ~~343,700~~ 120,000 pounds (round weight) of yellow perch and 125,000 pounds (dressed weight) of bloater chubs will be permitted. These annual total harvest quotas shall be divided equally among each licensee at the beginning of each license year. Upon reaching their share of the annual harvest quota for each species, each commercial license holder shall terminate fishing for that species for the remainder of the current license year. It shall be unlawful to possess other species except smelt and alewife incidentally caught in bloater chub and yellow perch gill nets, fished in compliance with this part and the Illinois Fish and Aquatic Life Code. All other species must be removed immediately from the gill nets as they are brought on board the vessel and returned to the water at once in the same condition as taken.

Section 850.25 Seasons

EMERGENCY

The commercial harvest of yellow perch is prohibited from June 1 through June 30, inclusive, annually. All yellow perch incidentally caught in gill nets during this time must be removed immediately from the gill nets as they are brought on board the vessel and returned to the water at once in the same condition as taken.

Section 850.30 Restricted Commercial Fishing Areas

EMERGENCY

- a) During the months of July and August, commercial gill net fishing may be undertaken anywhere in the Illinois portion of Lake Michigan outside of the 1,000 yard distance from any pier, breakwater, or similar structure, or the low water mark on the shore. From the months of September through ~~June~~ May, inclusive, commercial fishermen must fish in water depths of at least 5 fathoms (30 feet) or deeper to minimize incidental catch of salmon and trout.

- b) The following described area in Lake Michigan is established as fish refuge and it shall be unlawful for any person to place any commercial fishing device in it: all waters on or adjacent to any area commonly referred to as Julian's Reef, located in a general area bounded by 42° 16'00" north latitude on the north, 87° 29'00" west longitude on the east, 42° 11'00" north latitude on the south and 87° 35'00" west longitude on the west, on U.S. lake survey navigational chart #75, edition of April 1972 (National Oceanic and Atmospheric Administration).

- d) During the month of June, all gill nets must be placed in waters greater than 20 fathoms (120 feet) in depth to minimize the incidental catch of yellow perch.

- 8) Reason for Emergency: Section 810.10(d), Section 810.45, Calumet River, Chicago River and Lake Michigan: The yellow perch population in the southern basin of Lake Michigan has been experiencing dramatic abundance declines. Since 1992 the Illinois assessment catch rates for perch have declined by 74%. This decline has been due to a lack of significant recruitment into the perch population that is available to the sport and commercial fisheries. Section 810.45, Banner Marsh: Biological surveys conducted in 1994 were analyzed in December 1994, and new water areas were opened to public fishing in December 1994. Immediate action is necessary to limit and spread the harvest to more anglers. Section 810.45, Kinkaid Lake: Biological age and growth data analyzed by otolith age methods in 1994 indicate very slow growth to obtain 12 inches in size. Thinning by harvest is necessary to improve growth rates to acceptable levels. Protection of 16-18" bass is not desirable due to age mortality and will allow anglers to harvest that size fish which is normally wasted.

- 9) A Complete Description of the Subjects and Issues Involved: Section 810.10(d), Section 810.45, Calumet River, Chicago River and Lake Michigan: It is characteristic for yellow perch populations to be dominated by strong year classes and to have a series of 3 or 4 years with weak year classes. The current 5 year series of weak year classes has resulted in a population structure composed primarily of individuals that have reached or have passed their prime reproductive age. species. However, the age structure and abundance levels of perch now have reached a point that the four Lake Michigan Management Agencies believe cannot sustain the current fishery harvest levels. The objective of the lakewide management plan is to reduce yellow perch harvest so that existing stocks can be protected and thereby extend their harvest and recruitment opportunities. Section 810.45, Banner Marsh State Fish and Wildlife Area currently has no creel or length limit for crappie. The 1994 fall population survey indicated the current crappie growth rates are at the State average. A healthy crappie population can provide a valuable means of control on the eggs, fry, and fingerlings of rough fish present in the marsh. Section 810.45, Kinkaid Lake: Largemouth bass are slow growing to 12" and fast growing once reaching predator size. Protection of 12" bass should provide for many to reach 16" in 3 years. The lower maximum size limit will permit greater access to bass reaching age mortality and reduce competition between bass less than 12" which are slow growing. It will protect bass over 12" which have acceptable growth and preserve the integrity of the bass fishery.

NOTICE OF EMERGENCY AMENDMENTS

- 1) Heading of the Part: The Taking of Wild Turkeys - Spring Season

- 2) Code Citation: 17 Ill. Adm. Code 710

- 3) Section Numbers: Emergency Action:

710.50

Amendments

- 4) Statutory Authority: Implementing and authorized by Sections 1.3, 1.4, 1.20, 2.9, 2.10 and 2.11 of the Wildlife Code [520 ILCS 5/1.3, 1.4, 1.20, 2.9, 2.10 and 2.11].

- 5) Effective Date of Amendments: March 24, 1995

- 6) If this emergency amendment is to expire before the end of the 150-day period, please specify the date on which it is to expire: This emergency amendment will remain in effect for the 150-day period.

- 7) Date filed in Agency's principal office: March 24, 1995

- 8) Reason for emergency: To make the following changes to Section 710.50(b): Remove Green River State Wildlife Area (1) and add "(archery hunting only)" to Jubilee State Park (1).

- 9) A complete description of the subjects and issues involved: Green River is being removed due to concerns for public safety potentially arising from conducting this hunt in concert with the spring field trial program at Green River. Changes to Jubilee State Park are being made because recent information has shown that unregulated firearm hunting on this intensively-used small area may negatively impact turkey populations. In order to protect the population, the Department will only allow archery harvest initially and look to open the site in the future to quota-regulated firearm hunting.

- 10) Are there any proposed amendments to this part pending? No

- 11) Statement of statewide policy objectives (if applicable): This rule has no impact on local governments.

- 12) Information and questions regarding these amendments shall be directed to:

The rulemaking cited above concerns what information the Health Facilities Planning Board requires permit holders and applicants to report. When the Board adopted this rulemaking that combined the text of 2 rulemakings proposed separately, both the Register and file pages submitted to the Secretary of State were correct and complete. However, the text of one of the proposed rulemakings was inadvertently omitted from the adopted rule text, although the sections were listed and fully explained on the agency's notice page. The full text of the adopted rulemaking, effective March 1, 1995, follows on the next page.

SUBPART A: AUTHORITY, PURPOSE AND DEFINITIONS

Section 1130.140 Definitions

Definitions pertaining to program components can be found in the "Act" and in 77 Ill. Adm. Code 1100 and 1110. Definitions which will assist in the understanding of this Part are presented below.

- a) Acquisition or Change of Ownership means a change in the person who has operational control of an existing health care facility. Acquisition or change of ownership is indicated by:
 - 1) a transfer of stock or assets resulting in a person obtaining majority interest (i.e. over 50%) in the licensed or certified (if the facility is not subject to licensure) entity within a one year period; or
 - 2) the issuance of a license by the Agency to a person different from the current licensee; or
 - 3) the issuance of a provider number to a different person by certification agencies which administer Titles XVII and XIX of the Social Security Act.

AGENCY NOTE: A permit or exemption is required prior to the acquisition or change of ownership of a health care facility.

- b) Alteration means a any revision or change to the ~~components~~ of a project as detailed in the application that occurs after State Board approval of the permit. Components which can be altered include size, number of beds, scope of services to be provided, cost or method of financing. The site of the proposed project or the person(s) who is (are) the permit holder cannot be altered.
- c) Applicant means a person(s) who applies for a permit or exemption.
- d) Capital expenditure means an expenditure: made by or on behalf of a health care facility (as such a facility is defined in this Act); and which under generally accepted accounting principles is not properly chargeable as an expense of operation and maintenance, or is made to obtain by lease or comparable arrangement any facility or part thereof or any equipment for a facility or part; and which exceeds the capital expenditure minimum. The cost of any studies, surveys, designs, plans, working drawings, specifications, and other activities essential to the acquisition, improvement, expansion, or replacement of any plant or equipment with respect to which an expenditure is made shall be included in determining if such expenditure exceeds the capital expenditure minimum. Donations of equipment or facilities to a Health Care Facility which if acquired directly by such facility would be subject to review under this Act shall be considered capital expenditures, and a transfer of equipment or facilities for less than fair market value shall be considered a capital expenditure if a transfer of the equipment or facilities at fair market value would be subject to review. (Section 3 of the Act)
- e) Capital Expenditure Minimum means the dollar amount or value which

JOINT COMMITTEE ON ADMINISTRATIVE RULES
ILLINOIS GENERAL ASSEMBLY

would require a permit for capital projects and major medical equipment. Capital expenditure minimums are annually adjusted to reflect the increase in construction costs due to inflation per Section 1130.310.

- f) Certified or Certification means approval for a facility to receive reimbursement under Title XVIII and/or XIX of the Social Security Act (42 U.S.C.A 1395x).
- g) Completion or Project Completion means that the project has been brought to a conclusion, and that the finished project is in accordance with what the State Board authorized and:
 - 1) for projects with no cost that are limited to total discontinuation of a facility or of a category of service, the date the last patient is discharged or the date the permit for discontinuation is issued whichever comes later; or
 - 2) for projects with no cost that are limited to a substantial change in beds (pursuant to Section 1100.220) in licensed long-term care facilities (pursuant to 77 Ill. Adm. Code 1100.220), the date the Agency issues a revised license; or
 - 3) for projects with no cost that are limited to a substantial change in beds (pursuant to 77 Ill. Adm. Code 1100.220) in licensed hospitals or in state-operated facilities, the date the Agency receives a revised physical plant survey or the date of permit issuance which ever is later; or
 - 4) for projects limited to the establishment of a category of service, the date the first patient is treated or the date the Agency receives a report of final realized cost, whichever is later; or
 - 5) for projects limited to the establishment of a health care facility, the date the health care facility is licensed or the date the Agency receives a report of final realized cost, whichever is later; or
 - 6) for projects limited to the acquisition of major medical equipment, the date the Agency receives a report of final realized costs or the date the equipment is utilized to treat the first patient, whichever is later; or
 - 7) for all other projects including the ~~the establishment of~~ ~~facilities~~ ~~or~~ modernization of existing facilities, the date the Agency receives a report of final realized costs; or
 - 8) for projects not in accordance with what the State Board authorized, including projects with cost overruns, the date the State Board determines the project is complete.

- h) Consolidation means the combination of two or more existing health care facilities into a new health care facility terminating the existence of the existing or original facilities (A + B = C). Consolidation results in the establishment of a health care facility within the meaning of the Act and in the discontinuation of the existing facilities, resulting in termination of license for

JOINT COMMITTEE ON ADMINISTRATIVE RULES
ILLINOIS GENERAL ASSEMBLY

facilities subject to licensure or the loss of certification for facilities not subject to licensure. In example, consolidation becomes reviewable only when a new facility with a new license will be established due to the consolidation. In this case the A and B facilities which consolidate are reviewed for discontinuation and the new licensed facility C is reviewed for establishment. It is this discontinuation and establishment which creates the need for review.

i) Construction or modification means the establishment, erection, building, alteration, reconstruction, modernization, improvement, extension, discontinuation, change of ownership of or by a health care facility, or the purchase or acquisition by or through a health care facility of equipment for diagnostic or therapeutic purposes or for facility administration or operation or any capital expenditure made by or on behalf of a health care facility which exceeds the capital expenditure minimum. (Section 3 of the Act)

j) Discontinuation means to cease operation of an entire health care facility or ~~to cease operation of~~ a category of service. Discontinuation includes a determination by the State Board that:

- 1) a category of service has not been utilized for its intended purpose for a period of twelve months or more; or
- 2) a category of service approved after January 1, 1992 is not operating at utilization standards/target occupancy rates specified in 77 Ill. Adm. Code 1100, for that category of service, by the end of the second year of operation after project completion and on average for any two-year period thereafter (based upon data reported by the facility to the State Agency pursuant to Section 13 of the Act), and that need no longer exists in the planning area based upon the existence of such factors as, but not limited to, access to other services in the planning area, excess service capacity in the planning area, and the facility's ability to adequately staff the existing service; or

3) an existing category of service is not operating at utilization standards/target occupancy rates specified in 77 Ill. Adm. Code 1100, for that category of service, on average for any two-year period commencing on January 1, 1995 and thereafter (based upon data reported by the facility to the State Agency pursuant to Section 13 of the Act), and that need no longer exists in the planning area based upon the existence of such factors as, but not limited to, access to other services in the planning area, excess service capacity in the planning area, and the facility's ability to adequately staff the existing service. ~~for twelve months or more; or to reduce the facility bed total by more than ten beds; or ten percent; whichever is less; within a two-year period; or seasonal fluctuations in bed complement are not considered discontinuation.~~

k) Due Diligence means to take such actions toward the completion of a

JOINT COMMITTEE ON ADMINISTRATIVE RULES
ILLINOIS GENERAL ASSEMBLY

project for which a permit has been granted with that diligence and foresight which persons of ordinary prudence and care commonly exercise under like circumstances. An accidental or unavoidable cause which cannot be avoided by the exercise of due diligence in the meaning of this rule is a cause which reasonable prudent and careful persons, under like circumstances, do not and would not ordinarily anticipate, and whose effects under similar circumstances they do not and would not ordinarily avoid.

l) Establish or Establishment means the construction of a health care facility or the replacement of an existing facility on another site, or the consolidation of two or more existing facilities into a new facility, or the development of a category of service.

m) Existing Health Care Facility means any facility subject to the Act which:

- 1) has a valid license issued by the Agency and has provided services within the past 12 months, unless the failure to provide such service is the result of pending license revocation procedures, and has not surrendered or abandoned its license or had its license revoked or voided or otherwise deemed invalid by the Agency; or
 - 2) is certified under Titles XVIII or XIX of the Social Security Act; or
 - 3) is a facility operated by the State of Illinois; ~~or~~
 - 4) ~~is a health-maintenance organization which has a certificate of authority issued by the Department of Insurance.~~
- 5) AGENCY NOTE: Projects for which permits have been granted but which are not complete pursuant to subsection (g) of this Section above shall not be considered existing facilities, but the approved number of beds or services shall be recorded in the Inventory of Health Care Facilities maintained by the Agency and shall be counted against any applicable need estimate.

n) Final Decision or Final Administrative Decision or Final Determination means:

- 1) the decision by the State Board to approve or deny an application for permit. Action taken by the State Board to deny an application for permit is subsequent to an administrative hearing or to the waiver of such hearing; or
- 2) the decision by the State Board on all matters other than the issuance of a permit.
- 3) The decision is final at the close of business of the State Board meeting at which the action is taken.

o) Final Realized Costs are those costs of construction, modernization or equipment that have been incurred to complete a project for which a permit was granted. These costs include all expenditures and the dollar or fair market value of any component of the project whether acquired through lease, donation or gift.

p) Major Construction Projects Project means:

- 1) Projects for the construction of new buildings;
- 2) Additions to existing facilities ~~buildings~~; and
- 3) Modernization projects whose cost is in excess of \$1,000,000 or ten percent of the facility's operating revenue, whichever is less. (Section 59 of the Act).
- q) Major medical equipment means medical equipment which is used for the provision of medical and other health services and which costs in excess of the capital expenditure minimum, except that such term does not include medical equipment acquired by or on behalf of a clinical laboratory to provide clinical laboratory services if the clinical laboratory is independent of a physician's office and a hospital and it has been determined under Title XVIII of the Social Security Act (42 U.S.C.A. 1395x) to meet the requirements of paragraphs (10) and (11) of Section 1861f54(S) of such Act. In determining whether medical equipment has a value in excess of the capital expenditure minimum, the value of studies, surveys, designs, plans, working drawings, specifications, and other activities essential to the acquisition of such equipment shall be included. (111--Rev--Stat--1991--Ch--111--127--Par--1153--et--seq--Section 3 of the Act)
- r) Merger means the absorption of one or more existing health care facility into another existing health care facility. The result of the absorption is that only one facility survives (A + B = B). Merger results in the modification (e.g., expansion of beds or services) of the survivor facility and the discontinuation of the facility being absorbed.
- s) Modification of an Application or Modification
 - 1) Modification of an Application or Modification means any change to a proposed project during the review period (i.e., prior to final State Board action) which results in changing the proposed project's physical size or gross square feet, the site within a planning area, the operating entity when the operating entity is not the applicant, the number of proposed beds, the categories of service to be provided, the cost, the method of financing, or the configuration of space within the building.
 - 2) AGENCY NOTE: A change in the applicant or a change in site to outside the planning area originally identified in the application are not considered modifications and, if either occurs, the application is void.
- t) Notification of State Board Action means the transmittal of State Board decisions to the applicant or permit holder. Notification shall be given to the applicant's or permit holder's designated contact person, legal representative or chief executive officer.
- u) Obligation means receipt by the Executive Secretary of documents verifying one of the following:
 - 1) that the project is to be accomplished through the execution of binding enforceable contract(s), including lease agreements, to expend an amount exceeding the State Board's review thresholds

- for capital ~~expenditure~~ expenditures or acquisition of major medical equipment ~~minimum~~ or by an amount equal to or greater than 33 percent ~~or more~~ of the permit amount, whichever is less, and that the permit holder has ~~demonstrate~~ demonstrated a financial commitment to fund the project. Financial commitment can be shown by a statement from a financial institution or other lender indicating that funding will be provided; or
- 2) that the project is to be done internally or by permit holder and has been authorized by the governing body through the release of funds to expend 33 percent or more of the permit amount or an amount exceeding the capital expenditure minimum, whichever is less; or
 - 3) that the project has no cost and has been completed in accordance with subsection (g) above.
- AGENCY NOTE: Prior to signing principal contracts or to otherwise obligating the project, the permit holder is required to obtain an authorization to obligate pursuant to Section 1130.720.
- v) Project Commitment Date means the date the permit holder executes binding enforceable contracts to expend an amount which exceeds the capital expenditure minimum or at least 33 percent of the permit amount, whichever is less. For projects not undertaken by contract, the project commitment date is the date the permit holder's governing body authorizes or releases funds to expend an amount which exceeds the capital expenditure minimum or at least 33 percent or more of the permit amount, whichever is less. If a project has no cost the project commitment date is the date of project completion.
 - w) Proposal or Project means any proposed construction or modification of a health care facility or any proposed acquisition of equipment to be undertaken by an applicant.
 - x) Review Period means the time from the date an application for permit is deemed complete until the State Board renders its final decision.
 - y) Site means the physical location of a proposed project and is identified by address or legal property description.
 - z) ~~Substantially changes the bed count of a health care facility--means construction or modification--including acquisition of equipment--which Substantially changes the bed count of a health care facility means construction or modification, including acquisition of equipment, which changes the bed capacity of a health care facility by increasing or decreasing the total number of beds or by distributing beds among various categories of service or by relocating beds from one physical facility or site to another by more than 10 beds or more than 10% of total bed capacity as defined by the State Board, whichever is less, over a two year period. (Section 5 of the Act) The two year period begins on the date when additional beds added to the facility inventory become operational or when beds were discontinued. When a permit is granted which will result in a change in bed~~

capacity, the applicant facility may not add ~~or discontinue~~ any more beds in those services affected by the permit for two years from the date that such beds become operational ~~or discontinued~~ without obtaining an additional permit from the State Board. The facility may add ~~or discontinue~~ beds (as long as the number added ~~or discontinued~~ does not exceed 10 beds or 10% of the total facility capacity, whichever is less, over the two year period) in the other services not affected by the permit. Each facility will be contacted annually to verify bed inventory. If there is found, through this verification process, an increase ~~or decrease~~ in the calculated bed capacity of the facility, the State Agency shall determine the date the two year period begins. The date shall be published in the next available compilation of the Inventory of Health Care Facility and Need Determinations by Planning Area.

AGENCY NOTE: The discontinuation (reduction) of beds requires notice to the State Agency. The effective date of the bed reduction can be no earlier than the date of the State Agency's receipt of the bed reduction notice. It should also be noted that all proposed capital expenditures (including those which do not substantially change the bed capacity) in excess of the capital expenditure minimum require a permit, regardless of the purpose or nature of the project or transaction. However, ~~it should also be noted that~~ proposals for less than the capital expenditure minimum, including those with no capital expenditure, also require a permit if the project or transaction is for a substantial change in the facility's bed capacity.

aa) ~~Substantially changes the scope or changes the functional operation of the facility~~ Substantially changes the scope or changes the functional operation of the facility means: ~~the instituting at a site of an additional or different category of service as defined in category of Service in Section 5 of the Act~~

- 1) establishing an additional category as defined in Part 1100.220;
 - 2) discontinuation as defined in Section 1130.140(j);
 - 3) a change of a material representation made by the applicant in the "Application for Permit" subsequent to receipt of a permit which is relied upon by the State Board in making its decision.
- Material representations are those which provide a factual basis for issuance of a permit and include:

- A) withdrawal or non-participation in the Medicare and/or Medicaid programs;
- B) charge information;
- C) requirements of variances pursuant to 77 Ill. Adm. Code 1110.530(b); 1110.630(b); 1110.730(d); 1110.130(i); 1110.1430(c); and 1110.1730(d);
- D) other representations made to the State Board as stipulated in the permit letter;

- 4) the addition of a surgical specialty for an ambulatory surgical treatment center not previously approved; or

- 5) an increase of more than three dialysis stations or more than 10% of the facility's total number of dialysis stations, whichever is less, over a two-year period. The two-year period begins on the date the facility's additional stations are certified. When a permit is granted for additional stations or for the establishment of an additional facility/service, the facility may not add any more dialysis stations for two years from the date that such stations approved in the permit are certified without obtaining an additional permit.

AGENCY NOTE: ~~It should be noted that all~~ All proposed capital expenditures (including those which do not substantially change the scope) in excess of the capital expenditure minimum require a permit, regardless of the purpose or nature of the project or transaction. However, it should also be noted that proposals from the capital expenditure minimum or less including those with no capital expenditure, also require a permit if the project or transaction is for a substantial change in the facility's scope or functional operation.

SUBPART C: TRANSACTIONS SUBJECT TO REVIEW

Section 1130.310 Transactions Subject to Review

- a) A permit shall be obtained prior to the establishment, construction or modification of a health care facility which:
- 1) requires a total capital expenditure in excess of the capital expenditure minimum. All capital expenditure minimums (Section 1130.140(d)) shall be annually adjusted to reflect the increase in construction costs due to inflation. On October first of each year, the minimums will be adjusted for inflation. The basis for such adjustment for major medical equipment shall be the latest annual inflation rate as reflected in the Producer's Price Index as calculated in the DRI Health Care Costs section on Special Machinery and Equipment (DRI/McGraw-Hill Health Care Costs, Data Resources, 1750 K Street, N.W., Suite 300, Washington D.C. 20006). The basis for the adjustment to capital expenditures other than major medical equipment shall be the latest annual inflation rate as reflected in the medical construction component of the Means Cost Data (R.S. Means Company Inc., 100 Construction Plaza, P.O. Box 800, Kingston, MA 02364-0800). The revised minimums shall be published as an appendix to this Part; or
 - 2) substantially changes the scope or changes the functional operation of the facility by construction or modification or by acquisition of new equipment or alteration of existing equipment and as defined in Section 1130.140(aal); or
- ~~Substantial changes in scope or functional operation of the facility are the establishment or discontinuation of a category of service as defined in 77 Ill. Adm. Code 1119. Categories of service which have not been utilized for their intended purpose for a period of twelve months or more are considered to be discontinued; or~~
- 3) results in the establishment of a health care facility other than a health maintenance organization; or
 - 4) changes the bed capacity of a health care facility by increasing or decreasing the total number of beds or by distributing beds among various categories of service or by relocating beds from one physical facility or site to another by more than ten beds or more than ten percent of total bed capacity as defined by the State Board, whichever is less, over a two year period (pursuant to 77 Ill. Adm. Code 1100.220); or
- 5) ~~discontinues an entire facility or category of service unless an exemption has been granted in accordance with the provisions of Section 1130.540; Categories of service which have not been utilized for their intended purpose for a period of twelve months or more are considered to be discontinued; or~~

unless an exemption has been granted in accordance with the provisions of Section 1130.520.

- b) A permit must be obtained prior to the acquisition of major medical equipment unless an exemption has been granted in accordance with the provisions of Section 1130.510.
- c) Components of construction or modification which are interdependent must be grouped into one permit application. Interdependence occurs when components of construction or modification are architecturally and/or programmatically interrelated to the extent that undertaking one or more of the components compels the other components to be undertaken. In addition when components of construction or modification are to be undertaken by means of single construction contract, those components must be grouped into an application for permit. Projects involving acquisition of equipment which are linked with construction for the provision of a service cannot be segmented. A health service linkage exists when all components must be present for a service to be operational, or when financing is obtained at one time for a series of related components. Computer software, for example, cannot be separated from the equipment needed to run the program.
- d) Examples of projects which constitute construction or modification of a health care facility and require a permit include:
 - 1) Projects located within a licensed or certified health care facility;
 - 2) Projects which result in a health care facility:
 - A) Billing for services provided by the proposed project,
 - B) Capitalizing any portion of the proposed project,
 - C) Receiving reimbursement for services provided by the proposed project, or
 - D) Receiving recognition as the provider of the proposed service by third party payors;
 - 3) Projects which are staffed or operated by the health care facility;
 - 4) Projects which are otherwise of, by, through or on behalf of a health care facility.
- e) The discontinuation of an entire health care facility or category of service requires a permit unless an exemption has been granted in accordance with the provisions of Section 1130.540.

3. Calculation of Inflation Factors:

Inflation factors, for capital equipment projects represent the percentage increase or decrease in the related health care costs from July 1st of the preceding calendar year to July 1st of the year for which the adjustment is to be made. The capital threshold is adjusted utilizing the annualized data from the report year as compared to the preceding year. A growth in costs of five percent during this twelve-month period would result in an inflation factor of 1.05.

4. Source of Data:

The capital expenditure threshold adjustment for all items other than major medical equipment is taken from the Hospitals component of Square Footage, Cubic Feet and Percent of Total Costs (Item 460) from "Building Construction Cost Data 1990, 48th Annual Edition."

*The baseline threshold amounts have been adjusted for inflation for the period of 1988 to 1989. The calculated adjustment shown reflects the 1989 to 1990 time period.
